

CLAIMS

[0065] What is claimed is:

1. A convertible luggage comprising a flexible collapsible compartmented interior structure able to fit when in a collapsed state into an interior of said luggage and to be transformed from said collapsed state into a temporarily sturdy expanded state when said luggage is open.
2. The convertible luggage of claim 1 wherein said interior structure comprises:
 - a compartmented flexible interior arrangement; and
 - a support mechanism able to support said interior arrangement when said interior structure is in said expanded position.
3. The convertible luggage of claim 2, wherein said support mechanism comprises two generally stiff support arrangements located at two opposite sides of said interior arrangement, respectively.
4. The convertible luggage of claim 2 comprising a support connector able to connect said support mechanism to said interior arrangement.
5. The convertible luggage of claim 2, wherein said support mechanism is able to be detached from said interior arrangement.
6. The convertible luggage of claim 5, wherein said support mechanism is able to be rotated with respect to said interior arrangement.
7. The convertible luggage of claim 5, wherein said support mechanism is able to be placed on a top surface of said interior arrangement when said interior structure is in said collapsed state.
8. The convertible luggage of claim 2, wherein said support mechanism comprises a telescopic mechanism able to be in an expanded state and a closed state according to the state of said interior structure.
9. The convertible luggage of claim 7, wherein said telescopic mechanism comprises a telescopic bar.

10. The convertible luggage of claim 7 comprising a locking mechanism able to lock and unlock said telescopic mechanism.
11. The convertible luggage of claim 2, wherein said interior arrangement comprises one or more generally stiff horizontal separators and or more generally flexible vertical separators.
12. The convertible luggage of claim 1 comprising at least one handle for lifting said interior structure.
13. The convertible luggage of claim 1, wherein said interior structure is able to be removed from said luggage.
